Majority Fourier sectors and circuit-dependent signal
Exact majority spectrum, m=9
cumulative
Fourier-power fraction
Pauli-Z weight
Exact majority spectrum, m=5
cumulative
Fourier-power fraction
Pauli-Z weight
10-qubit cubic graph, L=1
output variance
gradient variance
cumulative truncation / full variance
maximum included weight
5-qubit ring, L=3
output variance
gradient variance
cumulative truncation / full variance
maximum included weight
